

**FRESNO, CALIFORNIA  
CLASS SPECIFICATION**

**WATER SYSTEM OPERATOR-IN-TRAINING**

**FLSA STATUS:**

Non-Exempt

**CLASS SUMMARY:**

The Water System Operator-in-Training is the first and entry level in a six level Utilities Water System Operator series. Incumbents are responsible for undergoing a formal training program in the testing, cleaning, maintenance, inspection, repair, installation replacement, surface and groundwater treatment, distribution, construction and operation of water system infrastructures. Under the direct supervision of a certified operator, incumbents gain experience to qualify for an operator certificate. Failure to successfully complete the training program is cause for termination. While in this classification, incumbents will not achieve permanent status within the classified service, as defined in Fresno Municipal Code Section 2-1601.1.

The Water System Operator-in-Training is distinguished from the Assistant Water System Operator, which is responsible for performing semi-skilled and skilled water system operations activities under general supervision.

**TYPICAL CLASS ESSENTIAL DUTIES:** (These duties are a representative sample; position assignments may vary.)

**FRE-  
QUENCY**

- |    |   |
|----|---|
